

LB7 Stealth 67G2

Features & Benefits

- 800+ RWHP Peak
- Billet Compressor & Turbine Wheel
- Stock Appearing, Upgraded Replacement
- Custom Cut Cover & Exhaust Housing
- 360 degree Thrust Bearing
- High Flow Turbine
- Quick Spool-Up
- Billet Custom Anti-Surge

Building the LB7 Stealth 67G2 meant designing a turbo that's safe to tow reasonable loads with, fun to drive every day and a class leading competitor. If you think street-able, clean, stealthy power is cool than this is the turbo for you! We left no stone un-turned when engineering the LB7 Stealth 67G2. Our custom profile on the compressor wheel matched to the custom turbine wheel means you get power and drive-ability.

LB7 Stealth 67G2 Details						
Fitment Specifications						
Year	OEM	Models	OEM Part #(s)			
2001-2004	Chevy	2500, 3500	8973077111 8971884545 97720748 97307711 766172-0001 VIDR VIDQ VICU			
2001-2004	GMC	2500, 3500				
Measurement Specifications						
Compressor - Wheel Inducer	Compressor - Inducer Bore	Compressor - Wheel Blade Count	Turbine - Wheel Exducer	Turbine - Wheel Inducer	Turbine - Wheel Blade Count	Peak Power
67mm	68mm	6 + 6	71mm	77mm	10	800 RWHP
Maximum Recommended Boost Pressure (psi) for LB7 Stealth 67G2						
Altitude (ft)	Barometric Pressure (psi)	Baro (inHG)	Max Safe Boost (psi)			
-1000	15.2	31.02	44.1			
0	14.7	29.88	42.6			
1000	14.2	28.86	41.2			
2000	13.7	27.84	39.7			
3000	13.2	26.83	38.3			
4000	12.7	25.81	36.8			
5000	12.2	24.8	35.4
